In 1909, Ole Evinrude changed the boating world forever with the first detachable rowboat motor. 100 years later, we continue to define innovation with the incredibly fuel-efficient, low-maintenance Evinrude® E-TEC® engines of today. In fact, Evinrude E-TEC is so reliable, it's the only outboard with no scheduled service for 3 years or 300 hours<sup>§</sup>. Less maintenance and greater fuel efficiency equals the lowest operating cost of any outboard. And, of course, MORE TIME ON THE WATER. Ole would be proud. Visit [Evinrude.com](http://Evinrude.com) or your local dealer to learn more.
